DRAFT CONFIDENTIAL

MEMORANDUM

To: Chief, Administrative Services

From: Comptroller

Subject: Procurement of a bulletproof car.

1. It is requested that a bulletproof car be procured for the use of the Comptroller's Office, Finance Division.

2. The specifications for such a car should be as follows:

a. The car should be a four door sedan of standard make, large enough to carry the additional weight of the protective devices.

b. It should be equipped with bulletproof glass throughout, and should have laminated fibre-glass or other bulletproof material between the panels and on either side of the engine.

c. In addition it should have such other features as are usually found in a vehicle of this type, including an alarm system, bulletproof tires, concealed gun racks, etc.

3. Insofar as is possible, the car should have no visible appurtenances which would distinguish it from any other automobile of similar make.

4. The Inspection and Security Division has recommended that, for security reasons, this car not be garaged with other Agency vehicles at the car pool. Arrangements for separate storage and maintenance will be made by this Office.
